RECOMMENDATIONS

- 1. Receive and file the Park Fee Annual Report for Fiscal Year 2021-2022, as set forth in Attachment 1;
2. Adopt the findings in the Park Fee Five Year Report, as set forth in Attachment 2 (5 Year Report);
3. Adopt the Resolution regarding the 5 Year Report, as set forth in Attachment 3;

SUMMARY

On September 7, 2016, the City Council approved the new Park Dedication and Fee Update Ordinance (Park Fee Ordinance), Ordinance No. 184,505, and approved a Resolution relative to a General Plan Amendment to amend the Public Recreation Plan of the Service Systems Element of the City of Los Angeles General Plan.

The Park Fee Ordinance implemented a new development impact fee that requires all new residential dwelling units to dedicate land, or pay a fee in-lieu, or provide a combination of land dedication and fee payment, for the purpose of acquiring, expanding, and improving park and recreational facilities for new residents.

PARK FEE ANNUAL REPORT FOR FISCAL YEAR 2021-2022

Pursuant to Los Angeles Municipal Code Section 12.33 I.2, within 180 days after the last day of each fiscal year, the Department of Recreation and Parks (RAP) shall report on each of the park

BOARD REPORT

PG. 2 NO. 22-288

and recreational facilities on which fees were committed in the last fiscal year and the appropriate date by which construction of the park and recreational facilities will commence and maintain accounts and prepare reports in accordance with the Mitigation Fee Act (California Government Code Section 66000 et seq.) or successor section.

Section 66006 of the Mitigation Fee Act requires that each local agency that imposes developmental impact fees prepare an annual report providing specific information on those fees. These requirements provide the community with information as to the status of impact fees collected.

Government Code subsection 66006(b)(1) sets forth the annual compliance reporting requirements under the Mitigation Fee Act as follows:

- 1) A brief description of the type of fee in the account;
- 2) The amount of the fee;
- 3) The account balance at the beginning and end of the fiscal year;
- 4) The amount of fees collected and interest earned;
- 5) An identification of each expenditure from the account, including a brief description of the expenditure and the percentage of the total cost of the expenditure funded by the fees;
- 6) An approximate date when construction will begin if the city or county determines it has sufficient funds to complete a public improvement;
- 7) A description of any interfund transfer or loan made from the account; and
- 8) The amount of any refunds made from the account.

Failure to report on activity and account balances per the applicable regulations could allow a successful challenge to the collection of the related fees in the future or the repayment of previously collected fees.

This Park Fee Annual Report, as shown in Attachment 1, only addresses the required annual reporting for Fiscal Year 2021-2022 (July 1, 2021 to June 30, 2023) (FY21-22).

In conformance with the requirements of the Mitigation Fee Act, the annual reporting requirements previously mentioned will be provided for the following development fees paid to the RAP:

- Quimby Fees
- Zone Change
- Subdivision
- Nonsubdivision

BOARD REPORT

- Exhibit C – Total Expenditures
- Exhibit D – Total Funds Committed

PARK FEE 5-YEAR REPORT

Section 66001 of the Mitigation Fee Act also requires that the local agency makes findings every five years with respect to the purpose and nexus of the imposed fee, the sources and amounts of all of funding anticipated to complete financing in incomplete improvements and the approximate dates on which the previously identified funding is expected to be deposited into the appropriate account or fund.

Government Code subsection 66006(d)(1) sets forth the annual compliance reporting requirements under the Mitigation Fee Act as follows:

“(1) For the fifth fiscal year following the first deposit into the account or fund, and every five years thereafter, the local agency shall make all of the following findings with respect to that portion of the account or fund remaining unexpended, whether committed or uncommitted:

- (A) Identify the purpose to which the fee is to be put.
- (B) Demonstrate a reasonable relationship between the fee and the purpose for which it is charged.
- (C) Identify all sources and amounts of funding anticipated to complete financing in incomplete improvements identified in paragraph (2) of subdivision (a).
- (D) Designate the approximate dates on which the funding referred to in subparagraph (C) is expected to be deposited into the appropriate account or fund.”

The City first started collecting the Park Fees on January 11, 2017 during the 2017-18 fiscal year. Thus, FY 2021-22 ending on June 30, 2022, is the end of the fifth fiscal year following the first collection of fees.

Upon approval of this report, the required findings per Section 66006(d)(1) of the Mitigation Fee Act, as detailed in Attachment 2, and the Resolution, as shown in Attachment 3, will be adopted by the Board of Recreation and Parks Commissioners (Board).

BOARD REPORT

PG. 4 NO. 22-288

ENVIRONMENTAL IMPACT

The proposed Board's actions consist of the approval of reports on activity and account balances as well as a determination that collection of future park fees is necessary in order for the City of Los Angeles to maintain a certain park level of service.

Staff found that the projects included in the reports on activity and account balances have already been approved by the Board of Park Commissioners and their direct and indirect impacts on the environment have already been assessed. The approval of the list does not change the characteristics of the projects, of the environment in which they are located, therefore does not require any additional California Environmental Quality Act (CEQA) action, according to Section 15162 of CEQA California Guidelines.

The determination that collection of future park fees is necessary in order for the City of Los Angeles to maintain a certain level of park service does not provide information on specific projects or activities, and does not provide elements to determine which direct or indirect impacts will have on the environment. Therefore, it is not an activity subject to CEQA, according to the definition of "project" included in Section 21065 of California Public Resources Code. The environmental impact of Projects funded with revenues from future park fees will be evaluated when the projects' details become available.

Based on these considerations RAP staff recommends that the Board of Recreation and Parks Commissioners (Board) take no CEQA action on this Report.

FISCAL IMPACT

This approval of this Report will have no fiscal impact on RAP's General Fund.

STRATEGIC PLAN INITIATIVES AND GOALS

Approval of this Board Report advances RAP's Strategic Plan by supporting:

Goal 6: Build Financial Strength & Build Innovative Partnerships

Result: The completion of these required reports will permit RAP to continue the collection of Park Mitigation Fees and maintains the financial health of the Park Fee program.

This Report was prepared by Meghan Luera, Senior Management Analyst I, Planning, Maintenance and Construction Branch.

CITY OF LOS ANGELES - DEPARTMENT OF RECREATION AND PARKS PARK FEE 5-YEAR REPORT

On September 7, 2016, the Los Angeles City Council approved the new Park Dedication and Fee Update Ordinance (Park Fee Ordinance), Ordinance No. 184,505, and approved a Resolution relative to a General Plan Amendment to amend the Public Recreation Plan of the Service Systems Element of the City of Los Angeles General Plan. The effective date of the Park Fee Ordinance was January 11, 2017.

The Park Fee Ordinance implemented a new development impact fee that requires all new residential dwelling units to dedicate land, or pay a fee in-lieu, or provide a combination of land dedication and fee payment, for the purpose of acquiring, expanding, and improving park and recreational facilities for new residents.

The Department of Recreation and Parks (RAP) is responsible for the administration of the Park Fee Impact Program. The Park Fees are under the control of the Board of Recreation and Parks Commissioners.

This report is made in accordance with the Mitigation Fee Act (California Government Code Section 66000 et seq.) (Act) which requires a local agency to make this report every five years for each development impact fee that the agency imposes on development projects. This report provides the information and analysis required to make these findings for the City's park impact fee.

Section 66001(d)(1) of the Act requires that for the fifth fiscal year following the first deposit into the account or fund, and every five years thereafter, the local agency make all of the following findings with respect to that portion of the account or fund remaining unexpended, whether committed or uncommitted:

- (A) Identify the purpose to which the fee is to be put.
- (B) Demonstrate a reasonable relationship between the fee and the purpose for which it is charged.
- (C) Identify all sources and amounts of funding anticipated to complete financing in incomplete improvements.
- (D) Designate the approximate dates on which the funding referred to for incomplete improvements is expected to be deposited into the appropriate account or fund.

The City first started collecting the Park Fees on January 11, 2017 during the 2017-18 fiscal year. Thus, FY 2021-22 ending on June 30, 2022, is the end of the fifth fiscal year following the first collection of fees. The findings made below for each fee are based on the fee being charged on June 30, 2022 (referred to as the "current" fee schedule in this report), and the ending fund balance in each fee account as of that date.

As of June 30, 2022, the fund balance for the following Park Fee accounts are shown below:

Account No.	Fund Balance at end of FY2022
302/89/89460K	\$81,016,478.41
302/89/89440K	\$6,892,062.11
302/89/89716H	\$81,314,741.26
302/89/89718H	\$59,635,643.53
302/89/89720H	\$6,243,468.88

As of June 30, 2022, the funds shown below were Uncommitted¹.

Account No.	Uncommitted Funds at end of FY2022
302/89/89460K	\$6,508,645.57
302/89/89440K	\$2,215,273.43
302/89/89716H	\$49,389,996.46
302/89/89718H	\$51,051,052.72

The unexpended Committed² funds as of June 30, 2022 are detailed in Table 1 and Table 2 attached to this report.

PARK FEES

Finding: Purpose of Fee

The local agency shall identify the purpose to which the fee is to be put.

New residential dwelling units increase demand on existing park and recreational facilities and create the need for additional facilities. The Park Fees are collected for the purpose of developing new or rehabilitating existing recreational facilities in order to create a healthy and sustainable city.

Finding: Reasonable Relationship

The local agency shall demonstrate a reasonable relationship between the fee and the purpose for which it is charged.

As a part of the City of Los Angeles Park and Recreation Site and Facility Development Impact Fee Study (Fee Study) that was prepared in 2015 to support the development of the Park Fee Ordinance, a technical analysis was undertaken to determine the maximum supportable park fee the City could legally adopt. The Fee Study calculated the maximum supportable park fee at Eighteen Thousand, Three Hundred Sixty-Four Dollars (\$18,364.00) per dwelling unit. As detailed in the Fee Study, the maximum supportable park fee was the amount necessary to charge new dwelling units in order to maintain the existing park level of service for City-owned facilities. At the

¹ Uncommitted funds are funds that were not allocated or committed by the Board of Recreation and Parks Commissioners to a capital improvement or acquisition project as of June 30, 2022.

² Committed Funds have been allocated or committed by the Board of Recreation and Parks Commissioners to a capital improvement or acquisition project as of June 30, 2022.

time of the Fee Study the existing park level of service for City-owned facilities was calculated at 4.2 acres per 1,000 residents (0.0042 acres of park land per resident).

As the City ultimately adopted parks fees that were below the maximum supportable park fee that was identified in the Fee Study and staff has been adjusting the fee annually based on the provisions of Los Angeles Municipal Code (LAMC) 12.33, the City's current fee rates are less than the amount needed to maintain the previously identified level of service.

Per LAMC Section 12.33.E.4., the park fees were phased in as described in LAMC Section 19.17. The phase in schedule from Section 19.17 is below:

Subdivision (Quimby in-lieu) fee:

At effective date of Park Fee Ordinance: Seven Thousand, Five Hundred Dollars (\$7,500.00), adjusted for inflation pursuant to LAMC Section 12.33.E.5.

First annual RAP rate and fee schedule update after effective date of Park Fee Ordinance: The prior year's fee amount plus Two Thousand, Five Hundred Dollars (\$2,500.00), adjusted for inflation pursuant to LAMC Section 12.33.E.5.

Per Board Report No. 16-248, the Subdivision Fee rate in effect on January 11, 2017 was \$8,122.50. The phased-in fees were adopted as part of RAP's rates and fees in Report Nos. 17-120, 17-242 and 18-113.

Non-subdivision (park mitigation) fee:

At effective date of Park Fee Ordinance: Two Thousand, Five Hundred Dollars \$2,500, adjusted for inflation pursuant to LAMC Section 12.33. E.5.

First annual RAP rate and fee schedule update after effective date of Park Fee Ordinance: The prior year's fee amount plus Two Thousand, Five Hundred Dollars \$2,500, adjusted for inflation pursuant to LAMC Section 12.33.E.5.

Per Board Report No. 16-248, the Non-subdivision Fee rate in effect on January 11, 2017 was \$2,707.50. The phased-in fees were adopted as part of RAP's rates and fees in Report Nos. 17-120, 17-242 and 18-113.

Per LAMC 12.33, the calculation of the Park Fee annual adjustment is based on the data provided in Engineering News Record's Construction Cost Index for Los Angeles and in CoreLogic's (Dataquick) Median Home Sales Price for the City of Los Angeles. All subsequent Park Fee adjustments have been completed in accordance with the provisions of LAMC 12.33.

There is a reasonable relationship between the fee and the purpose for which it is charged because (1) the fee was based on maintaining the City's existing level of investment for citywide parks and recreational infrastructure, (2) the fee is restricted to funding only those capital projects that improve or expand this infrastructure to accommodate increased demand from new development, and related administrative costs of incurred by the City to manage the Park Fee program, and (3) the fee may not be used for maintenance or operating costs of that infrastructure.

Finding: Alternative Funding Sources

The local agency shall identify all sources and amounts of funding anticipated to complete financing in incomplete projects to be funded by the Park Fees as of the prior fiscal year (June 30, 2022). Active projects with funding shortfalls are identified on Table 1 of this report.

Proposition K

The passage of Proposition K in 1996 created a Citywide assessment district that generates \$25,000,000 each year in funds for the acquisition, improvement, construction and maintenance of parks and recreational and community facilities through an annual assessment on all real property in the City for 30 years. Funding is provided for capital improvements and for acquisition of land for parks, recreational, or open-space purposes. The primary purpose of funding allocated through this RFP will be to combat the inadequacies and decay of the City's recreational infrastructure for youth, which has resulted in serious unmet needs for park, recreation, child-care, and community facilities serving youth in particular. Under Proposition K, approximately \$298,850,000 of the total amount to be generated over 30 years has been allocated to the City for 183 projects specified in the ballot measure. Proposition K also requires the allocation of at least \$143,650,000 of the total amount generated over the 30-year life of the Proposition K Program, through an open and competitive process for eligible governmental agencies, nonprofit organizations and City departments.

Municipal Improvement Corporation Funds

The Municipal Improvement Corporation Funds account for the activities of the City's public financing entity, Municipal Improvement Corporation of Los Angeles (MICLA). Established in 1984, the foundation was formed for the purpose of providing financial assistance to the city for the acquisition of certain real property, equipment for the benefit of the public and construction of new buildings, through the issuance of certificates of participation and lease revenue bonds.

Community Development Block Grant

The Community Development Block Grant (CDBG) Program provides annual grants on a formula basis to states, cities, and counties to develop viable urban communities by providing decent housing and a suitable living environment, and by expanding economic opportunities, principally for low- and moderate-income persons. The program is authorized under Title 1 of the Housing and Community Development Act of 1974, Public Law 93-383, as amended 42 U.S.C. 5301 et seq.

Measure A

In 2016, Los Angeles County (County) voters approved Measure A, which provides the City of Los Angeles formula-based annual allocations for capital improvement projects under Community-based Park Investment Program (Category 1) and Neighborhood Parks, Healthy Communities, & Urban Greening Program (Category 2); competitive grants for capital improvement projects and recreational access programs under Natural Lands, Local Beaches, Water Conservation and Protection (Category 3); Regional Recreation Facilities, Multi-use Trails and Accessibility (Category 4); and additional competitive grants for Youth and Veteran Job Training and Placement (Category 5) as well as Implementation, Operations and Oversight Category. Additional annual allocations are available under Maintenance and Servicing Program to offset Proposition A and Measure A funded capital projects. Funding through the Measure A

grant program will be generated in perpetuity through the collection of a parcel tax, with an estimated total annual funding of \$96.8 million across the County.

Parks First Trust Fund

The Parks First Fund shall be used for the deposit of money paid to the City of Los Angeles pursuant to the Vermont/Western Station Neighborhood Area Specific Plan and any other money appropriated or given to this Fund for the creation or development of parks and open space in the Vermont/Western Station Neighborhood area.

Health Alternatives to Smoking Trust (HATS) Fund

The purpose of the HATS Fund is for the receipt, retention and disbursement of monies from the National Tobacco Settlement. Disbursements shall be made through Proposition K: LA for Kids Program Request for Proposal. Monies from the Fund may only be used for the acquisition of park land and recreation improvements in under-served areas.

Deferred Maintenance

The 2021-22 Adopted Budget included Seventy-Five Million Dollars (\$75,000,000.00) in the Unappropriated Balance for RAP to make capital improvements at City parks and facilities (Council File No. 21-0935). In response, RAP developed a capital improvement plan to utilize the \$75,000,000 in funds to complete various park projects citywide.

Childcare Funds

The 2021-22 Adopted Budget included \$20,000,000 in the Unappropriated Balance for RAP to make capital improvements at ten (10) existing childcare facilities and to hire staff for those facilities (Council File No. 21-0937).

AB1290 Funds

The Council District AB 1290 Fund provides funding for redevelopment and community services in various Council Districts. Assembly Bill 1290 money has been made available annually to those council districts that have redevelopment areas, and the amount is based on the number of redevelopment projects.

Transfer of Floor Area Rights Funds

Transfer of Floor Area Rights (TFAR) Funds are deposited into the Public Benefit Payment Trust Funds. Funds held in the Public Benefit Payment Trust Fund shall be disbursed in accordance with Section 5.416 of the Los Angeles Administrative Code.

Park and Recreational Sites and Facilities Fund

The Dwelling Unit Construction Tax (DUCT) is a \$200 per dwelling unit fee that is collected by the Department of Building and Safety at permit issuance. The DUCT fee are deposited into the Park and Recreational Sites and Facilities Fund and are exclusively used for the acquisition and development of park and recreational sites and facilities.

Proposition 68

On June 5, 2018, Proposition 68 (Prop 68) was passed by a majority of California voters to fund a \$4.1 billion “California Drought, Water, Parks, Climate, Coastal Protection, and Outdoor for All Act of 2018”. The purpose of Prop 68 is to fund state and local parks, beaches, environmental protection and restoration, water infrastructure, and flood protection projects. A total of \$650,275,000 of Prop 68 funds have been dedicated to the Statewide Park Development and Community Revitalization Program.

Capital and Technology Improvement Expenditure Program (CTIEP)

The CTIEP is a portion of each year’s adopted City budget and funds capital improvement projects for various departments.

Finding: Alternative Funding Timing

The local agency shall designate the approximate dates on which additional funding identified in the prior finding is anticipated to complete projects.

RAP will continue to seek grants and other funding for the projects shown in Table 1 that have funding shortfalls and which require additional funding to complete. Staff anticipates that funding will be identified within the next two budget cycles (FY2023 and FY2024).

RESOLUTION

This resolution makes the necessary findings per the requirements of the California Mitigation Fee Act (California Government Code Section 66000 et seq.) for the fifth fiscal year of the City of Los Angeles Park Fee Program.

WHEREAS, the City of Los Angeles (City) provides public recreation, parks, beaches, multiuse trails, and open space facilities and sites within the City of Los Angeles;

WHEREAS, abundant and accessible parks and open space are essential components of healthy and sustainable neighborhoods and park and recreational facilities offer opportunities for physical activity, safe places for families and children, spaces for social interaction, access to nature, and places for mental respite;

WHEREAS, people who live within walking distance of a park or recreational facility are more likely to engage in physical activity;

WHEREAS, parks and open space provide people with access to nature which can improve psychological, social, and medical health;

WHEREAS, parks and open space provide aesthetic and environmental benefits such as urban cooling, stormwater management, and carbon and pollution sequestration, which can mitigate the impacts of pollution;

WHEREAS, parks and open space enhance property values, increase municipal revenues, and attract home buyers, workers, and tourists;

WHEREAS, the Southern California Association of Governments (SCAG) Regional Growth Forecast estimates that the City will add significantly more people during the coming decades. New residential construction in Los Angeles is necessary to accommodate the additional population;

WHEREAS, new residential construction should not diminish the City's park and recreational facilities or reduce the service level currently provided by the City;

WHEREAS, it is necessary to acquire and develop new park and recreational facilities to serve the new residential population and to maintain the existing service level;

WHEREAS, residential development projects that do not subdivide the land upon which units are constructed add population to the City and increase the demand for park and recreational facilities to the same extent as residential development projects which require land subdivision;

ATTACHMENT 3

WHEREAS, the Los Angeles City Council approved the new Park Dedication and Fee Update Ordinance (Park Fee Ordinance), Ordinance No. 184,505 on September 7, 2016 (Council File 16-0529), which became effective on January 11, 2017;

WHEREAS, the California Mitigation Fee Act requires that the local agency make certain findings with respect to that portion of the Park Fee Program account or fund remaining unexpended, whether committed or uncommitted, for the fifth fiscal year following the first deposit of funds (Section 66001(d)(1));

WHEREAS, Attachment A to this Resolution sets forth the findings required by Section 66001(d)(1) of the California Mitigation Fee Act; and

WHEREAS, Attachment B to this Resolution sets forth the active (Table 1) and completed (Table 2) projects with committed and unexpended Park Fee funds in connection hereto.

NOW, THEREFORE, BE IT RESOLVED, BY THE BOARD OF RECREATION AND PARKS COMMISSIONERS OF THE CITY OF LOS ANGELES AS FOLLOWS:

- A. The necessary findings per Section 66001(d)(1) of the California Mitigation Fee Act have been made and it is determined that the unexpended Park Fees, committed and uncommitted, and collection of future Park Fees (as authorized under Los Angeles City Ordinance No. 184,505) are still necessary in order for the City of Los Angeles to maintain the park level of service of 4.2 acres per 1,000 residents.
- B. The Board of Recreation and Parks Commissioners hereby adopts the findings set forth in Attachment A and Attachment B of this Resolution.

I HEREBY CERTIFY that the foregoing is a full, true and correct copy of a Resolution adopted by the Board of Recreation and Park Commissioners of the City of Los Angeles at its meeting held on _____, 2022 (Report No. _____).

CITY OF LOS ANGELES - DEPARTMENT OF RECREATION AND PARKS PARK FEE 5-YEAR REPORT

On September 7, 2016, the Los Angeles City Council approved the new Park Dedication and Fee Update Ordinance (Park Fee Ordinance), Ordinance No. 184,505, and approved a Resolution relative to a General Plan Amendment to amend the Public Recreation Plan of the Service Systems Element of the City of Los Angeles General Plan. The effective date of the Park Fee Ordinance was January 11, 2017.

The Park Fee Ordinance implemented a new development impact fee that requires all new residential dwelling units to dedicate land, or pay a fee in-lieu, or provide a combination of land dedication and fee payment, for the purpose of acquiring, expanding, and improving park and recreational facilities for new residents.

The Department of Recreation and Parks (RAP) is responsible for the administration of the Park Fee Impact Program. The Park Fees are under the control of the Board of Recreation and Parks Commissioners.

This report is made in accordance with the Mitigation Fee Act (California Government Code Section 66000 et seq.) (Act) which requires a local agency to make this report every five years for each development impact fee that the agency imposes on development projects. This report provides the information and analysis required to make these findings for the City's park impact fee.

Section 66001(d)(1) of the Act requires that for the fifth fiscal year following the first deposit into the account or fund, and every five years thereafter, the local agency make all of the following findings with respect to that portion of the account or fund remaining unexpended, whether committed or uncommitted:

- (A) Identify the purpose to which the fee is to be put.
- (B) Demonstrate a reasonable relationship between the fee and the purpose for which it is charged.
- (C) Identify all sources and amounts of funding anticipated to complete financing in incomplete improvements.
- (D) Designate the approximate dates on which the funding referred to for incomplete improvements is expected to be deposited into the appropriate account or fund.

The City first started collecting the Park Fees on January 11, 2017 during the 2017-18 fiscal year. Thus, FY 2021-22 ending on June 30, 2022, is the end of the fifth fiscal year following the first collection of fees. The findings made below for each fee are based on the fee being charged on June 30, 2022 (referred to as the "current" fee schedule in this report), and the ending fund balance in each fee account as of that date.

As of June 30, 2022, the fund balance for the following Park Fee accounts are shown below:

Account No.	Fund Balance at end of FY2022
302/89/89460K	\$81,016,478.41
302/89/89440K	\$6,892,062.11
302/89/89716H	\$81,314,741.26
302/89/89718H	\$59,635,643.53
302/89/89720H	\$6,243,468.88

As of June 30, 2022, the funds shown below were Uncommitted¹.

Account No.	Uncommitted Funds at end of FY2022
302/89/89460K	\$6,508,645.57
302/89/89440K	\$2,215,273.43
302/89/89716H	\$49,389,996.46
302/89/89718H	\$51,051,052.72

The unexpended Committed² funds as of June 30, 2022 are detailed in Table 1 and Table 2 attached to this report.

PARK FEES

Finding: Purpose of Fee

The local agency shall identify the purpose to which the fee is to be put.

New residential dwelling units increase demand on existing park and recreational facilities and create the need for additional facilities. The Park Fees are collected for the purpose of developing new or rehabilitating existing recreational facilities in order to create a healthy and sustainable city.

Finding: Reasonable Relationship

The local agency shall demonstrate a reasonable relationship between the fee and the purpose for which it is charged.

As a part of the City of Los Angeles Park and Recreation Site and Facility Development Impact Fee Study (Fee Study) that was prepared in 2015 to support the development of the Park Fee Ordinance, a technical analysis was undertaken to determine the maximum supportable park fee the City could legally adopt. The Fee Study calculated the maximum supportable park fee at Eighteen Thousand, Three Hundred Sixty-Four Dollars (\$18,364.00) per dwelling unit. As detailed in the Fee Study, the maximum supportable park fee was the amount necessary to charge new dwelling units in order to maintain the existing park level of service for City-owned facilities. At the

¹ Uncommitted funds are funds that were not allocated or committed by the Board of Recreation and Parks Commissioners to a capital improvement or acquisition project as of June 30, 2022.

² Committed Funds have been allocated or committed by the Board of Recreation and Parks Commissioners to a capital improvement or acquisition project as of June 30, 2022.

time of the Fee Study the existing park level of service for City-owned facilities was calculated at 4.2 acres per 1,000 residents (0.0042 acres of park land per resident).

As the City ultimately adopted parks fees that were below the maximum supportable park fee that was identified in the Fee Study and staff has been adjusting the fee annually based on the provisions of Los Angeles Municipal Code (LAMC) 12.33, the City's current fee rates are less than the amount needed to maintain the previously identified level of service.

Per LAMC Section 12.33.E.4., the park fees were phased in as described in LAMC Section 19.17. The phase in schedule from Section 19.17 is below:

Subdivision (Quimby in-lieu) fee:

At effective date of Park Fee Ordinance: Seven Thousand, Five Hundred Dollars (\$7,500.00), adjusted for inflation pursuant to LAMC Section 12.33.E.5.

First annual RAP rate and fee schedule update after effective date of Park Fee Ordinance: The prior year's fee amount plus Two Thousand, Five Hundred Dollars (\$2,500.00), adjusted for inflation pursuant to LAMC Section 12.33.E.5.

Per Board Report No. 16-248, the Subdivision Fee rate in effect on January 11, 2017 was \$8,122.50. The phased-in fees were adopted as part of RAP's rates and fees in Report Nos. 17-120, 17-242 and 18-113.

Non-subdivision (park mitigation) fee:

At effective date of Park Fee Ordinance: Two Thousand, Five Hundred Dollars \$2,500, adjusted for inflation pursuant to LAMC Section 12.33. E.5.

First annual RAP rate and fee schedule update after effective date of Park Fee Ordinance: The prior year's fee amount plus Two Thousand, Five Hundred Dollars \$2,500, adjusted for inflation pursuant to LAMC Section 12.33.E.5.

Per Board Report No. 16-248, the Non-subdivision Fee rate in effect on January 11, 2017 was \$2,707.50. The phased-in fees were adopted as part of RAP's rates and fees in Report Nos. 17-120, 17-242 and 18-113.

Per LAMC 12.33, the calculation of the Park Fee annual adjustment is based on the data provided in Engineering News Record's Construction Cost Index for Los Angeles and in CoreLogic's (Dataquick) Median Home Sales Price for the City of Los Angeles. All subsequent Park Fee adjustments have been completed in accordance with the provisions of LAMC 12.33.

There is a reasonable relationship between the fee and the purpose for which it is charged because (1) the fee was based on maintaining the City's existing level of investment for citywide parks and recreational infrastructure, (2) the fee is restricted to funding only those capital projects that improve or expand this infrastructure to accommodate increased demand from new development, and related administrative costs of incurred by the City to manage the Park Fee program, and (3) the fee may not be used for maintenance or operating costs of that infrastructure.

Finding: Alternative Funding Sources

The local agency shall identify all sources and amounts of funding anticipated to complete financing in incomplete projects to be funded by the Park Fees as of the prior fiscal year (June 30, 2022). Active projects with funding shortfalls are identified on Table 1 of this report.

Proposition K

The passage of Proposition K in 1996 created a Citywide assessment district that generates \$25,000,000 each year in funds for the acquisition, improvement, construction and maintenance of parks and recreational and community facilities through an annual assessment on all real property in the City for 30 years. Funding is provided for capital improvements and for acquisition of land for parks, recreational, or open-space purposes. The primary purpose of funding allocated through this RFP will be to combat the inadequacies and decay of the City's recreational infrastructure for youth, which has resulted in serious unmet needs for park, recreation, child-care, and community facilities serving youth in particular. Under Proposition K, approximately \$298,850,000 of the total amount to be generated over 30 years has been allocated to the City for 183 projects specified in the ballot measure. Proposition K also requires the allocation of at least \$143,650,000 of the total amount generated over the 30-year life of the Proposition K Program, through an open and competitive process for eligible governmental agencies, nonprofit organizations and City departments.

Municipal Improvement Corporation Funds

The Municipal Improvement Corporation Funds account for the activities of the City's public financing entity, Municipal Improvement Corporation of Los Angeles (MICLA). Established in 1984, the foundation was formed for the purpose of providing financial assistance to the city for the acquisition of certain real property, equipment for the benefit of the public and construction of new buildings, through the issuance of certificates of participation and lease revenue bonds.

Community Development Block Grant

The Community Development Block Grant (CDBG) Program provides annual grants on a formula basis to states, cities, and counties to develop viable urban communities by providing decent housing and a suitable living environment, and by expanding economic opportunities, principally for low- and moderate-income persons. The program is authorized under Title 1 of the Housing and Community Development Act of 1974, Public Law 93-383, as amended 42 U.S.C. 5301 et seq.

Measure A

In 2016, Los Angeles County (County) voters approved Measure A, which provides the City of Los Angeles formula-based annual allocations for capital improvement projects under Community-based Park Investment Program (Category 1) and Neighborhood Parks, Healthy Communities, & Urban Greening Program (Category 2); competitive grants for capital improvement projects and recreational access programs under Natural Lands, Local Beaches, Water Conservation and Protection (Category 3); Regional Recreation Facilities, Multi-use Trails and Accessibility (Category 4); and additional competitive grants for Youth and Veteran Job Training and Placement (Category 5) as well as Implementation, Operations and Oversight Category. Additional annual allocations are available under Maintenance and Servicing Program to offset Proposition A and Measure A funded capital projects. Funding through the Measure A

grant program will be generated in perpetuity through the collection of a parcel tax, with an estimated total annual funding of \$96.8 million across the County.

Parks First Trust Fund

The Parks First Fund shall be used for the deposit of money paid to the City of Los Angeles pursuant to the Vermont/Western Station Neighborhood Area Specific Plan and any other money appropriated or given to this Fund for the creation or development of parks and open space in the Vermont/Western Station Neighborhood area.

Health Alternatives to Smoking Trust (HATS) Fund

The purpose of the HATS Fund is for the receipt, retention and disbursement of monies from the National Tobacco Settlement. Disbursements shall be made through Proposition K: LA for Kids Program Request for Proposal. Monies from the Fund may only be used for the acquisition of park land and recreation improvements in under-served areas.

Deferred Maintenance

The 2021-22 Adopted Budget included Seventy-Five Million Dollars (\$75,000,000.00) in the Unappropriated Balance for RAP to make capital improvements at City parks and facilities (Council File No. 21-0935). In response, RAP developed a capital improvement plan to utilize the \$75,000,000 in funds to complete various park projects citywide.

Childcare Funds

The 2021-22 Adopted Budget included \$20,000,000 in the Unappropriated Balance for RAP to make capital improvements at ten (10) existing childcare facilities and to hire staff for those facilities (Council File No. 21-0937).

AB1290 Funds

The Council District AB 1290 Fund provides funding for redevelopment and community services in various Council Districts. Assembly Bill 1290 money has been made available annually to those council districts that have redevelopment areas, and the amount is based on the number of redevelopment projects.

Transfer of Floor Area Rights Funds

Transfer of Floor Area Rights (TFAR) Funds are deposited into the Public Benefit Payment Trust Funds. Funds held in the Public Benefit Payment Trust Fund shall be disbursed in accordance with Section 5.416 of the Los Angeles Administrative Code.

Park and Recreational Sites and Facilities Fund

The Dwelling Unit Construction Tax (DUCT) is a \$200 per dwelling unit fee that is collected by the Department of Building and Safety at permit issuance. The DUCT fee are deposited into the Park and Recreational Sites and Facilities Fund and are exclusively used for the acquisition and development of park and recreational sites and facilities.

Proposition 68

On June 5, 2018, Proposition 68 (Prop 68) was passed by a majority of California voters to fund a \$4.1 billion “California Drought, Water, Parks, Climate, Coastal Protection, and Outdoor for All Act of 2018”. The purpose of Prop 68 is to fund state and local parks, beaches, environmental protection and restoration, water infrastructure, and flood protection projects. A total of \$650,275,000 of Prop 68 funds have been dedicated to the Statewide Park Development and Community Revitalization Program.

Capital and Technology Improvement Expenditure Program (CTIEP)

The CTIEP is a portion of each year’s adopted City budget and funds capital improvement projects for various departments.

Finding: Alternative Funding Timing

The local agency shall designate the approximate dates on which additional funding identified in the prior finding is anticipated to complete projects.

RAP will continue to seek grants and other funding for the projects shown in Table 1 that have funding shortfalls and which require additional funding to complete. Staff anticipates that funding will be identified within the next two budget cycles (FY2023 and FY2024).
